DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/20/09 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-9, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Lien (5,396,492).

Regarding claims 1, 2 and 3, Lien discloses an adaptive clock recovery apparatus showing a device for receiving data transmitted using ATM technology, a data-independent clock signal being added to the device (33, 23), and a FIFO memory device (15) for storing the received data for the required period of time in order to compensate for transmission delay.

Regarding claim 4, see col. 3, lines 44-48.

Regarding claim 5, note counter 23.

Regarding claim 6, the VXCO is not synchronized with the transmission end.

Lien further shows a means for adjusting (25, 30, 33, 23).

Regarding claim 7, see col. 11, lines 2-5.

Regarding claim 8, see col. 4, lines 17-22.

Regarding claims 9 and 18, Lien inherently includes a data parser (see col. 1, lines 18-19).

Response to Arguments

4. Applicant's arguments filed 3/20/09 have been fully considered but they are not persuasive.

In considering applicant's arguments that Lien does not address the data independent clock signal and the memory device, and stores the received data for the required period of time in order to compensate for transmission delays, and that the device stores the received data for the required period of time such that a period between two disturbances is made long that any effect of the two disturbances is reduced, the Examiner disagrees. In col. 4, line 58, to col. 5, line 3, Lien states that the arrangement 10 including the FIFO memory 15 is devised to compensate jitters or transmission delays. The jitters are caused by: 1) bunching caused by the beat rate between various isochronous ATM sources, and/or 2) statistical queuing delays caused by paths in an ATM switch that momentarily interrupted by other traffics. By storing data in the FIFO memory 15, disturbances caused by above jitters are effectively

avoided or reduced. It clearly meets the claimed invention. As a result, the rejection based on Lien still stands.

Conclusion

5. This is an RCE of applicant's application. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
